DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This three bay wide, 2½ story high row house is in a row of seven originally identical buildings. Built of brick laid in running bond, 1318 Hanover is in the most nearly original condition of the group.

The entrance vestibule on the left is reached by a flight of four marble steps set against the face of the brick basement. To the right two segmental arched basement windows have marble sills and are filled with wire screen.

First and second floor wall openings are segmental arched with rusticated brick keystones. First floor openings have thick marble sills; those on the second floor openings are thinner. Jigsaw scrolls are cut into the the frame between the sash of double hung windows with 1/1 lights and the brick arches above. The entranceway has a rectangular transom.

A wooden cornice is supported on four slim brackets which define the bays. A row of dentils runs beneath a flat molding cut with jigsaw work.

A high slated mansard rises above the cornice, with diamonds of red slate set on the roof above the party walls. In the central bay, a tall wall dormer projects from the mansard, covered by a gabled roof with kicked ends. The opening is filled with a double hung window with 2/2 lights. The pedimental area above is carved with a central rosette flank by areas of jigsaw work. Wooden pendants hang from the underside of the gable ends. A string of molding runs at the ridge of the mansard.

A two bay wide extension of the building shares a party wall with an extension of 1316 Hanover Street, to the north.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This mansard style of house is found in scattered rows throughout the lower portions of Sharp-Leadenhall. Falling somewhere between the Second Empire and Beaux Arts revival eras, the houses are distinguished by their large central wall dormers, and high slate mansards with diamond patterning.
